CAREER OBJECTIVE

Motivated Computer Science Engineering graduate with strong knowledge in Python, SQL, and Web Development technologies. Proficient in Object-Oriented Programming (OOP) concepts, data structures fundamentals, and problem-solving. Experienced in developing applications using Python and working with modern development tools and frameworks. Seeking an entry-level software developer role to contribute technical skills and grow within a dynamic organization.

EDUCATION

B. Tech in Computer science and Engineering	2022-2026
Siddhartha Institute Of Science And Technology, Puttur	CGPA-7.3/10

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, SQL
- **Web Technologies:** HTML, CSS, Bootstrap
- **Databases:** MySQL
- **Development Tools:** GitHub, Power BI, Excel

PROJECT

Deep learning based route optimization and demand forecasting:

- Developed a route optimization and demand forecasting system using Machine Learning
- Used Python, Pandas, NumPy, Tensor Flow for prediction models
- Improved delivery efficiency using optimization techniques

INTERNSHIP

Eduniverse Tech Solutions (Duration August 2025 - October 2025):-

- Worked on data preprocessing, model training, and performance evaluation using Python and machine learning algorithms. Collaborated on real-time ML tasks, implemented feature engineering, and improved model accuracy through tuning and testing. Skills used - Data Collection, Exploratory Data Analysis, Documentation, Presentation Skills

Vault Of Codes (Duration January 2024 - February 2024):-

- Developed responsive web pages using HTML, CSS, JavaScript, and optimized UI for better performance and user experience. Skills used - HTML And CSS, Java script

SOFTSKILLS

- Communication
- Time Management
- Team Collaboration
- Problem-Solving
